

TWIN2EXPAND

# STAKEHOLDERS MEETING 01

13 SEPTEMBER 2023, NICOSIA

twinning towards  
research excellence  
in evidence-based planning  
and urban design

**TWIN2EXPAND** is a capacity-building project aiming to increase research excellence in the field of evidence-based urban design and planning (EBDP) and foster its uptake in Cyprus. EBDP involves using the best available scientific evidence to inform decision-making through the process of design and planning.

This three-year project consists of a consortium which twins the University of Cyprus with UCL Bartlett, Chalmers University of Technology, and Turin Polytechnic for purposes of furthering the dissemination of EBDP methods while encouraging their adoption beyond academia. It is funded by EU Horizon and UKRI.

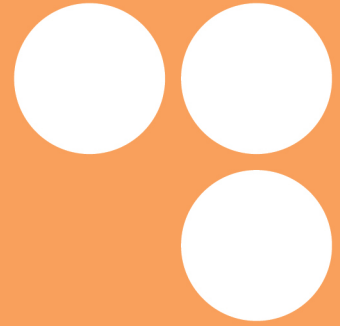

TWIN2EXPAND hosts **STAKEHOLDERS MEETINGS** in Cyprus. In this meeting members of the TWIN2EXPAND team from University of Cyprus, University College London and Chalmers University of Technology will present **what EBDP is and its potential for planning and design**. Examples of how EBDP is applied in policy and practice in other countries will be shown, including spatial models, integrated urban models and development projects. The team will also explain the models, tools, data and research that will be developed and carried out during the project and will be made publicly available.

## Wednesday 13th of September 2023

Society and Urban Form (SURF) research lab  
A006, Department of Architecture  
University of Cyprus  
75 Kallipoleos, 1678 Nicosia

Schedule	Activity	Speaker
13:30 - 14:00	Light lunch	
14:00 - 14:05	Introduction to Twin2Expand project	Nadia Charalambous, University of Cyprus
14:05 - 14:15	Introduction to EBDP	Kayvan Karimi, UCL Bartlett
14:15 - 14:40	Twin2Expand research and methods	Ioanna Stavroulaki, Chalmers University of Technology
14:40 - 15:00	EBDP in practice & past experiences	Kayvan Karimi, UCL Bartlett
15:00 - 16:30	Discussion
