NICOSIA, CYPRUS & ONLINE

twinning towards
research excellence
in evidence-based planning
and urban design

Working Group Studio A – Research Capability

Dates:

Friday 9th February, 2024: Project meeting (online)

Wednesday 14th February, 2024 – Friday 16th February, 2024: WGSa Days 1-3; Department of Architecture; University of Cyprus; 75 Kallipoleos street, 1678, Nicosia; Room A006 (SURF lab)

GENERAL DESCRIPTION OF ACTIVITIES

WGSA - research capability; these activities will bring together researchers, research managers and administrators, and research support staff from the Department of Architecture and UCY Research Support services, and representatives of the leading institutions for the purposes of developing a scientific and organisational strategy for Society and Urban Form Lab (SURF) and drafting an action plan. As part of this process, the working group will review the UCY team's previous funding proposals in the field, working towards their improvement and matching them to suitable call for future resubmission or adaptation, while mapping opportunities for new collaborative proposals. Additionally, resources allocation and support systems for funding proposals and research management at UCY will be reviewed to identify gaps and needs, and to co-create a plan for a renewed managerial and administrative support infrastructure. Training in research management and administration, including IPR training, and grant writing will be organised through this working group. [D2.2, D2.3]
