### **GENERAL DESCRIPTION OF ACTIVITIES**

WGSA - research capability; these activities will bring together researchers, research managers and administrators, and research support staff from the Department of Architecture and UCY Research Support services, and representatives of the leading institutions for the purposes of developing a scientific and organisational strategy for Society and Urban Form Lab (SURF) and drafting an action plan. As part of this process, the working group will review the UCY team's previous funding proposals in the field, working towards their improvement and matching them to suitable call for future resubmission or adaptation, while mapping opportunities for new collaborative proposals. Additionally, resources allocation and support systems for funding proposals and research management at UCY will be reviewed to identify gaps and needs, and to co-create a plan for a renewed managerial and administrative support infrastructure. Training in research management and administration, including IPR training, and grant writing will be organised through this working group. [D2.2, D2.3]

<b>Thursday 16<sup>th</sup> January – WGSa: Research Capability</b>			
<b>Times CET</b>	<b>Activity</b>	<b>Led by</b>	<b>Participants</b>
10.00am-12.30	Exploitation Plan Workshop: <ul style="list-style-type: none"> <li>• RIF Knowledge transfer office</li> <li>• Horizon results booster</li> </ul>	UCY: Anastasia Constantinou	T2E Consortium, SURF Lab
