Stakeholders Meeting

The Stakeholders Meeting, taking place on March 26, 2025, at the Strovolos Cultural Centre, builds upon the previous meeting held in July 2024, as well as the analysis and evaluation of the Strategic Masterplan conducted by the SURF Lab.

Taking into account the prioritization carried out during the July meeting and the outcomes of the analysis, the aim of this meeting is to map and highlight aspects of the Pedaios River Masterplan that require immediate reconsideration, based on the key issues and themes that have been identified.

This meeting is organized within the framework of the TWIN2EXPAND research project, coordinated by the SURF Lab at the Department of Architecture, University of Cyprus. The project seeks to strengthen excellence in research and innovation in the field of Evidence-Based Design and Planning, and to promote interdisciplinary research and collaboration in this area.

Its overarching goal is to generate meaningful impact on the broader scientific community, relevant planning stakeholders, and urban societies—supporting the understanding and tackling of urban challenges, as well as the evaluation and leveraging of the opportunities offered by cities and urban communities.
